PRIMITIVE LIGHTING

AS USED BY OUR ANCESTORS 5000 B. C.

McKENNEY & WATERBURY COMPANY

CATALOGUE NO. 30

ILLUSTRATING

LIGHTING FIXTURES

FOR THE

Electrical Lighting of the Home

There is no part of the home equipment that will cause more annoyance and irritation than unsuitable lighting fixtures. Therefore it is economy to purchase from a house of established reputation whose product is of the highest standard.

In this booklet we illustrate a special selection from our complete line.

To assist you in making a selection we have suggested in what rooms the designs may be used to good advantage.

It does not follow, however, that these designs are appropriate for these locations only.

A dome we suggest for a Dining Room may be equally effective and appropriate for a Living Room.

A shower suggested for a Hall may, in many instances, be as well suited for a Living Room or Den.

We call your attention to page three for detailed information.

We carry these goods in stock for immediate shipment

"WE LIGHT THE WORLD"

We carry this complete line in stock for immediate delivery

IMPORTANT

¶ PLEASE read this page carefully. It will prevent errors in ordering and insure prompt service.

¶ Under each illustration is given number of fixture, length, description and finish in which fixture is carried in stock. Other finishes are special to order and are subject to extra charge and delay in shipment.

¶ All fixtures are equipped with male hickeys to attach to ceiling or wall. If insulating joints are required, please so order, and same will be furnished at additional cost. Fixtures are priced complete with wire, key or keyless sockets, shade holders and shades as illustrated. If shades, as shown, are not in stock we will substitute something of equal value and as near design as possible.

¶ Length of fixtures are over all, as trimmed. Spread is measured between centre of nozzle where sockets attach. Electric lamps are not included. Special quotations on lamps upon application.

¶ Fixtures are not assembled and sockets are not connected at price quoted. We will connect sockets and assemble at nominal charge for labor, if so desired.

¶ Our prices are as low as is consistent with quality.

Our Slogan:—"Not how cheap but how good"
